**Gibraltar**

## **PRESS RELEASE**

No. 173/2007

Date: 3 August 2007

### **PROVISION OF BICYCLE RACKS**

As mentioned by the Minister for the Environment in his budget speech, a study was carried out last year of areas where bicycle racks could be installed as a way of encouraging the use of this non-polluting means of transport. To coincide with Gibraltar's 'In Town Without My Car' campaign and as part of its overall contribution to dissuade people from using cars and instead adopt a more environmentally friendly, sociable and healthy option, the Government will be providing bicycle-parking facilities at the following locations:

Europort Road  
Casemates Tunnel  
Land Port Ditch  
Fish Market Road  
Commonwealth car Park  
Reclamation Road by English Steps  
Line Wall Road

In addition the Government will monitor this initial scheme with the view of providing further facilities in other areas, if this becomes necessary.

Commenting on this initiative, the Minister for the Environment, the Hon J J Netto said, " the 'In Town Without My Car' campaign serves as a useful opportunity to remind people generally of the options available to citizens of using more environmentally friendly forms of transport. These include using public transport, cycling or walking. People should whenever possible make use of these options, as a means of reducing emissions and enjoying a healthy lifestyle".
