PRESS RELEASE

No. 141/2008

Date: 10th June 2008

As previously announced, the Government will conduct a “way forward” review of GBC during the course of this year.

The review will cover all aspects of GBC including its public service offering, programme output, management and staff structure, pay structure and working practices. This part of the review will commence during June, and will be carried out by Mr Allan King, media consultant and, until recently, news presenter and journalist of SKY NEWS TV. Mr King is well acquainted with Gibraltar.

It is anticipated that the review will include an opportunity for individual staff members to express their views confidentially to Mr King. The general public will also be given an opportunity to express views about what should be expected of GBC in the future.

In parallel to this review, the Government will also be separately reviewing the issues of new Broadcasting legislation, new premises for GBC and the re-equipping of GBC to enable its conversion to digital broadcasting.

The Hon J Holliday, Minister for broadcasting said: -

“This will be a ‘root and branch’ review of all aspects of GBC to reposition it for a successful future in every sense: programming, organisational, legislative and technical so that it will serve Gibraltar as well during the next 50 years as it has during the last 50 years.
