

Table S.7

**National Income, 2002/03 - 2014/15**

| Year         | GDP (Factor Cost)<br>£ million | GNP (Factor Cost)<br>£ million | GDP (Factor Cost per<br>Capita) £ | GNP (Factor Cost per<br>Capita) £ |
|--------------|--------------------------------|--------------------------------|-----------------------------------|-----------------------------------|
| 2002/03      | 507.41                         | 459.18                         | 17,793                            | 16,102                            |
| 2003/04      | 560.39                         | 497.92                         | 19,474                            | 17,303                            |
| 2004/05      | 599.74                         | 552.06                         | 20,629                            | 18,989                            |
| 2005/06      | 656.51                         | 593.71                         | 22,328                            | 20,192                            |
| 2006/07      | 740.07                         | 658.62                         | 24,859                            | 22,123                            |
| 2007/08      | 806.07                         | 699.57                         | 26,714                            | 23,185                            |
| 2008/09      | 898.70                         | 778.57                         | 29,357                            | 25,433                            |
| 2009/10      | 1,012.58                       | 889.99                         | 32,570                            | 28,627                            |
| 2010/11      | 1,082.19                       | 954.36                         | 34,247                            | 30,201                            |
| 2011/12      | 1,201.31                       | 1,050.76                       | 37,369                            | 32,686                            |
| 2012/13      | 1,317.06                       | 1,176.67                       | 40,381                            | 36,076                            |
| 2013/14 (i)  | 1,484.28                       | -                              | 45,203                            | -                                 |
| 2014/15 (ii) | 1,637.75                       | -                              | 49,419                            | -                                 |

Updated 15 January 2016

*Notes:*

(i) Preliminary Estimate.

(ii) Forecast.

(iii) The GDP figures from 2002/03 to 2013/14 have been revised to take into account the increase in private sector housing developments since the 2001 Census.

(iv) The population figures used to calculate GDP per capita have been revised from 2002/03 to 2013/14 following the results of the 2012 Census.
