**Action**

As a consequence of this decision by the Spanish Authorities, I have been deprived of the acquired and recognised right of free movement which I should enjoy as an EU citizen approved under the EU Treaties.

I therefore request the assistance of the European Commission/ the Petitions Committee of the Parliament of the European Union, so that, through any actions those institutions might take, it should be guaranteed that the authorities of the Kingdom of Spain correctly comply with Community legislation on the subject of free movement of persons at the land frontier between Spain and Gibraltar.
