A. PREFACE

The Statistics (Air Traffic Survey) Order 1971 requires that a report and summary of the findings of the Air Traffic Survey be laid before the House of Assembly. This is the seventeenth report and contains a summary of statistics collected for the years 1972 to 1991.

The report contains statistical data on air traffic operations between Gibraltar and other destinations for both scheduled and charter airlines. The report also includes some general data on commercial freight.

I must express my thanks to the Airlines and Gibraltar Airport Authority for their continued co-operation in the conduct of this Survey.
