## **Residential Parking Schemes**

As part of the implementation of the Sustainable, Traffic, Transport and Parking Plan and as a direct result of stakeholder feedback and involvement, H.M. Government of Gibraltar has identified the need to introduce Residential Parking Schemes (RPS) at various locations around Gibraltar.

A Residential Parking Scheme is normally implemented in areas where there is more demand for parking than spaces available. These schemes do not guarantee a parking space for anyone, but help manage the parking situation for people living in those areas. The aim of a residential parking scheme is to provide residents with an improved chance of parking whilst still supporting the needs of visitors and commercial activities in those areas. A Residential Parking Scheme will also indirectly tackle the issue of derelict vehicles on the public highway therefore allowing for better management of existing parking stock.

The success of a RPS relies heavily on proper parking enforcement of these areas and the appointed 'Parking Management Officers' will play a key role in patrolling and regulating the residential zones.

## Residential Zones

The Government is looking at a phased approach towards the implementation of the new Residential Parking Scheme. The Scheme will see Gibraltar strategically divided into various zones (Zone 1, Zone 2, Zone 3 etc.).

Within each 'Zone', the following types of parking bays will be available:

### 1) Residential

Residents Parking Permits will allow users to park within their designated zone boundary (long term & short term).

### 2) Pay & Display (P&D)

A section of P&D will be introduced in some locations to accommodate visitors within the area.

### 3) Blue Badge

Only Disabled Persons Badge holders will be able to park in designated Disabled Bays.

### 4) Motorcycle

Motorcycles will not need to apply for a permit and will therefore not be restricted to park within any specific RPS zone. They will nevertheless only be able to park strictly in allocated motorcycle bays and will therefore be prohibited to park in any space demarcated for car use.

### 5) Mixed Use – Loading/Unloading Bays

Some of the parking bays will have an element of mixed use. These bays will consist of loading/unloading parking bays in which any zone permit holder may be able to park for a maximum time as stipulated by the relevant sign. They will allow users to run quick errands in the immediate area without allowing long stay parking. Outside the hours of operation, the loading/unloading parking bays will revert to residential parking for the residents of that specific zone.

### 6) Free Parking

These parking bays have no restrictions and no permits are necessary for their use. These free parking spaces may be used by any private motor vehicle.

## Residents Parking Permit

A Residents Parking Permit allows the owners to park within their own designated residential zone. When visiting other zones, they will need to park in a pay and display bay or in a mixed use/free bay if available.

*Example of Residents Parking Permit – May be subject to change*

### Motorcycle Owners

Owners of motorcycles do not need to apply for a permit as they will not be restricted to park in their zones or any other zones. Motorcycles can only park in designated M/C parking bays.

### Who is Eligible to Apply?

The person applying for the permit must meet the following criteria:

- Reside within the specified zone. (e.g. to obtain a 'Zone 1' permit you must be registered to an address within the Zone 1 catchment area).
- Not be in arrears or debt with any Government Department or agency.
- Own a motor vehicle which is registered as a 'private' vehicle.

### Applying for a Permit

- Applications are restricted to one permit per vehicle.
- Each resident can apply for one permit, although there is no limit to the number of residents who can apply in any one household. However, incremental fees shall apply. See page 5.
- A tear out application form is included in this booklet. Additional applications may be obtained from the main office of Gibraltar Car Park Ltd located at Unit 99, Harbours Walk, New Harbours, Rosia Road or alternatively, from the HM GoG website: [www.gibraltar.gov.gi](http://www.gibraltar.gov.gi)

## Requirements

In order to apply for a 'Residents Parking Permit' you will need to provide the following:

- Gibraltar Identity Card or Civilian Registration Card.
- Proof of residence – such as a utility bill, tenancy agreement, or bank statement issued in the last 3 months.
- Valid MOT Certificate – expired MOT certificates or MOT appointment bookings in lieu of a valid certificate will not be accepted. Brand new cars and cars which are under 4 years old are exempted from this requirement.
- Certificate of Registration (Log Book) – cars must be registered in the applicant's name and the address shown on the certificate of registration must be consistent with the address shown on the permit application form.

## Cost of Permits

- First Permit per household £5.00 pcm
- Second Permit per household £10.00 pcm
- Third Permit per household £20.00 pcm

1. *If the household benefits from a parking space or garage by way of ownership or an individual residing at that household is renting a parking space or garage under their name, the cost of the first permit will be charged at the 'Second permit per household' rate.*
2. *The incremental price of the permits will be applied on a household basis (that is, per address).*
3. *The cost of permits will continue to double for each additional permit issued (per address).*
4. *If you apply for a permit during the course of the year, the corresponding charge will be calculated on a pro-rata basis to the nearest month.*
5. *If you no longer require your permit you may hand it in before the expiry date but a refund will not be given.*
6. *Permit fees are payable and renewable annually. Monthly payments will not be accepted.*

## Persons over 60 years of age

Where Point 1 above does not apply, any applicant aged 60 or over may purchase the 'First' permit at a 50% discount. The discount is only applicable to the 'First' permit per household. The cost of any further permits per address, will continue to double from the full first permit price.

## Disabled Persons Badge (Blue Badge) Holders

Provided that they meet the requirements for a 'Residents Parking Permit' as stated above, Disabled Persons Badge holders will be eligible for the 'First' permit free of charge. Further information concerning Disabled Persons Badges can be obtained from the Driver & Vehicle Licensing Department, MOT Centre, Eastern Beach Road. Contact telephone number: 20051603. E-mail: [driverinfo@gibraltar.gov.gi](mailto:driverinfo@gibraltar.gov.gi)

## Signage and Parking Demarcation

Parking within the various zones will be clearly demarcated with road markings and a number of different signs that have been briefly described below.

*All Motorcycle vehicles are to be parked within the demarcated “M/C” zones. Motorcycle bays will be signposted as shown and marked with ‘Yellow’ road markings.*

*Residential parking areas will be signposted to indicate the relevant parking zone as shown. Only vehicles with “Residents Parking Permits” will be able to park within these demarcated bays, which will be marked with ‘Yellow’ road markings.*

There will be various 'Loading and Unloading' bays demarcated throughout different areas in Gibraltar. These bays will be signposted to allow vehicles to park for a maximum of 30 minutes daily between 8am to 7pm. After 7pm, only vehicles with the corresponding 'Residents Parking Permit' can park in these bays.

Car parking spaces for 'Disabled Persons Badge Holders' will be demarcated with suitable road markings and signposted as per usual.

These signs will be placed around the different zones where "Residential Parking" has been allocated.

These signs will be placed along the areas where 'Free Parking' for cars have been allocated.

All 'Pay & Display' zones will be signposted as shown.

All 'Pay & Display' parking zones will include these signs to indicate where the nearest pay machine is located (e.g., far left).

All 'Pay & Display' parking zones will include these signs to indicate where the nearest pay machine is located (e.g., far right).

All 'Pay & Display' parking zones will include these signs to indicate where the nearest pay machine is located. In this case, it indicates that there is a machine located at both the far right and left of the parking zone\*.
