PREFACE

The Statistics Act (Employment Survey Order as Amended) 1970 requires that the Government Statistician prepare a report for Parliament. This is the fifty-seventh such survey the purpose of which is to obtain information regarding trends in employment, hours worked and earnings of all employees in Gibraltar.

In October 2007, all known employers were sent Employment Survey questionnaires in respect of their employees. Three reminders were sent to late respondents with the survey closing in February 2008. The response rate was almost 100% with only 34 employers out of the 1,892 who had been sent the survey form failing to complete and return the questionnaire or register a nil return.

I must express my thanks to all employers for their continued co-operation in the conduct of this survey.

* This nationality split presents problems of accuracy. Some employers classify all their British employees, including Gibraltarians, under the UK British category and since no personal details are provided it is not possible to differentiate between the two categories. This would result in an understatement of the Gibraltarians in employment.
