

GOVERNMENT OF GIBRALTAR

EMPLOYMENT SURVEY

REPORT

OCTOBER 2004

STATISTICS OFFICE

PREFACE

The Statistics Ordinance (Employment Survey Order as Amended) 1970 requires that the Government Statistician prepare a report for the House of Assembly. This is the fifty-fourth such survey the purpose of which is to obtain information regarding trends in employment, hours worked and earnings of all employees in Gibraltar.

In October 2004, all known employers were sent Employment Survey questionnaires in respect of their employees. Three reminders were sent to late respondents with the survey closing in February 2005. The response rate was excellent with only 15 employers out of the 1,396 who had been sent the survey form failing to complete and return the questionnaire or register a nil return.

I must express my thanks to all employers for their continued co-operation in the conduct of this survey.

GOVERNMENT STATISTICIAN

APRIL 2005

SURVEY SUMMARY

1. The number of employee jobs reported in October 2004 increased by +3.7% from 15,419 in October 2003 to 15,994, the highest ever recorded. Once again the response rate was almost 100% with 1,061 out of the 1,396 known employers completing the questionnaire in respect of their employees and 320 registering a nil return.
2. The main employment trends during the period covered by this report can be summarised as follows:
 - (a) Average annual earnings in respect of all employee jobs increased by +2.1%, from £17,460.44 in October 2003 to £17,834.25 in October 2004.
 - (b) The largest increase in the level of employee jobs by industry were those registered in the Other Services industry. The number of jobs recorded for this industry increased by 291 (+21.2%) between October 2003 and October 2004.
 - (c) The number of employee jobs recorded in respect of the private sector increased by +5.4%, from 11,411 in October 2003 to 12,030 in October 2004. The number of jobs in the Gambling & Betting Activities sub-industry increased over the period from 840 to 1,124 (+33.8%) with 31 firms submitting returns compared with 21 in October 2003.
 - (d) During the period, the total number of weekly-paid full-time adult employee jobs fell from 4,563 in October 2003 to 4,506 in October 2004 (-1.2%). Monthly-paid full-time adult employee jobs increased from 8,289 to 8,950 (+8.0%) over the same period. Thus, the total number of adult full-time employee jobs increased from 12,852 in October 2003 to 13,456 in October 2004 (+4.7%).
 - (e) Average weekly earnings in respect of full-time adult male employee jobs decreased from £300.44 in October 2003 to £292.56 in October 2004 (-2.6%). This fall reflects unusually high bonus payments in the Official Sector during the relevant survey week in October 2003. Over the period, earnings in the Private Sector increased by +2.4%. The number of full-time weekly-paid adult male jobs fell from 3,399 to 3,362 (-1.1%) with jobs in the Real Estate & Business Activities industry increasing by +15.5% from 213 to 246. However, the Construction industry showed a marginal decrease in the number of weekly-paid adult male jobs from 1,354 in October 2003 to 1,347 in October 2004, a drop of -0.5%.
 - (f) Earnings in respect of monthly-paid full-time adult male jobs increased by +2.0%, from £2,167.52 to £2,211.53 over the period. The earnings of full-time monthly-paid female jobs increased by +3.8%, from £1,529.43 to £1,586.88. The number of full-time monthly-paid adult jobs recorded in the Other Services industry group increased by +35.9% in respect of males and by +32.3% in respect of females as a result of increased employment within the gambling firms.

* This nationality split presents problems of accuracy. Some employers classify all their British employees, including Gibraltarians, under the UK British category and since no personal details are provided it is not possible to differentiate between the two categories. This would result in an understatement of the Gibraltarians in employment.
