

ROYAL GIBRALTAR POST OFFICE NOTICE

RECOMMENDED LATEST POSTING DATES FOR CHRISTMAS 2008

Members of the public are advised that the recommended latest posting dates for Christmas are listed below. The public is, however, kindly requested to post as early as possible in order to allow Post Offices worldwide every opportunity to ensure delivery of their postal items in time for Christmas, especially where items contain articles or goods subject to customs duty before delivery.

Members of the public are requested to check that they use the correct postage in order to ensure that letters and other postal items are not delayed in the post. You are also reminded that an address is incomplete without its postcode and that return addresses should be clearly annotated on the back of all items posted.

The information contained in this notice is accurate at the time of going to print but is liable to change due to circumstances beyond the control of the Royal Gibraltar Post Office. Information on any changes will be available from Post Office Counters.
