OFFICIAL NOTICE

Technical Services Dept – Urgent Cleansing of Main Sewer along Line Wall Road

In order for the Sewers Infrastructure Section of the Technical Services Department to undertake essential works to cleanse the main trunk sewer along Line Wall Road, the following traffic arrangements have been put into place. Line Wall Road from its junction with Kings Street up to its junction with Bomb House Lane will be reduced to a single lane as from 7.00pm to no later than 2.00am daily over a period of ten days. Traffic travelling through the area will be controlled using stop and go hand signals whilst works are in progress. Temporary advance road works signs will be placed accordingly on the approach to the works.

The Government would like to take this opportunity to apologise to the general public for any inconvenience that these works may cause to them.
