**PRESS RELEASE**

No: 211/2009

Date: 28 October 2009

At a Press Conference to-day, the Chief Minister Peter Caruana, and the Minister for Transport, Joe Holliday and the Minister for the Environment, Ernest Britto, launched the Government's integrated Traffic, Parking and Transport Plan.

The Comprehensive Plan, which is attached to this statement deals with parking, traffic management, enforcement, roads and alternatives to motor car use.

Many elements of the Plan are already well under way. Indeed some have been completed. This reflects the Government's attention to these issues since 1996. However, in its Manifesto at the 2007 elections the Government identified Parking as an historical problem area upon which it would focus during this term of office. The Government has been doing so, and the Plan represents, in one of its many dimensions, the Government's blue print for that.

The Government will welcome comments and suggestions from any member of the public or organisation that will assist in further improving the Plan. Anyone who wishes to do so, should write to the Ministry of Transport at Europort by 30 November 2009.
