PRESS RELEASE

PR NO: 379/2011

DATE: 16th December 2011

WESTERN BEACH

As the public is already aware, there are certain circumstances by which a storm drain in La Linea is adversely affected leading to high readings of pollution at Western Beach.

In recent weeks, readings have shown continuous high levels of pollution at the beach resulting in exceedences of bathing water standards. The Government has therefore decided to close access to Western Beach until further notice as a measure of caution.
