PRESS RELEASE

No. 449/2012

Date: 17th July 2012

HIGH PROFILE SPEAKERS AT GIBRALTAR'S 'THINKING GREEN' FORUM

Gibraltar will host a major environmental forum later this year at which the two main speakers will be distinguished experts, internationally renowned in their fields.

The forum will be hosted by Minister of the Environment, Dr John Cortes, and will be held at the John Mackintosh Hall on Sunday 21 October.

A major goal of this forum is to create awareness and stimulate innovation within communities including businesses. Today's world is facing two of the most important challenges our planet has ever encountered: the international economic recession and the climate crisis. 'Thinking Green' will focus on these two areas with the goal of providing strategies, solutions, inspirations and leadership to business and professionals.

The day will end with a dinner in St Michael's Cave at which the main speakers will be present.

Note to Editors:

A Press Conference will be held in the Charles Hunt Room at the John Mackintosh Hall on Thursday 19 July at 1900. The Press Conference will be chaired by the Minister of the Environment, Dr John Cortes. Also present will be members of the management company representing the main speakers. Dr Cortes will be available for one-to-one interviews.

All press are invited to attend.
