PRESS RELEASE

No. 513/2012

Date: 10th August 2012

Moorish Castle Estate Public Clock

The Moorish Castle Estate public clock has developed a major fault with its mechanism which will require specialist parts to be manufactured. It will be out of commission for a period of at least eight weeks whilst faulty key parts are removed and manufactured. These specialist repairs will be carried out by Smith of Derby from the UK, who are contracted by the Government to carry out annual inspections of all public clocks in Gibraltar. These repairs will be done to coincide with their annual servicing trip.
