No: 825/2012

Date: 11th December 2012

GHA NATIVITY CRIB

The Minister for Health and the Environment, the Hon John Cortes MP, will formally unveil the Nativity Crib at St Bernard's Hospital this Wednesday 12th December 2012 at 11.15am.

Mr Carlos Perez, a member of the GHA's Hospital Attendants staff, is the creator behind the Crib's 200 figures, water features and intricate lighting. For the past six years, in his spare time, Mr Perez has carefully assembled and packed away the crib and its contents with the help of his colleagues.

Minister Cortes thanked Carlos for his work, dedication and skill. "This really adds to the spirit of Christmas, and will be enjoyed by patients, staff and visitors alike."

Members of the public are invited to view the Nativity Crib beside the Main entrance of St Bernard's Hospital. Donations from the public are gratefully accepted on behalf of Leukaemia Research.
