Date: 28<sup>th</sup> June 2013

**MINISTER CONGRATULATES SUCCESSFUL TEACHERS**

The Minister responsible for Education, the Hon Gilbert Licudi QC, wishes to congratulate the group of 13 teachers recently awarded Masters Degrees in Educational Leadership and Management by the University of Durham. He also thanks these teachers for their hard work and dedication.

This particular group of primary and secondary teachers achieved excellent overall results: 6 were awarded distinctions and another 5 were awarded merits! The course provides teachers with an understanding of the importance of leadership within schools and was designed in partnership with the Department of Education, specifically for the local context.

The Minister highlighted the Government's continued commitment to professional development and the drive to improve standards. As mentioned in Minister Licudi's budget speech, the Department of Education continues to explore similar partnerships with Higher Education institutions for the provision of other professional development courses for teachers.
