

# HM Government of Gibraltar

6 CONVENT PLACE

## OFFICIAL NOTICE

### **Resurfacing of Part of Europa Road by ex-1772 Club**

As part of the Government's ongoing road maintenance programme, resurfacing works will be undertaken along the southern part of Europa Road. In order to allow these works to proceed, the following traffic arrangements will be put in place. As from 9.30 am on Monday 13 October 2014 and for a period not exceeding four weeks, traffic along Europa Road by the ex-1772 Club area will be controlled by operatives using stop and go hand signals during the hours the works are underway. Traffic will be controlled using temporary traffic lights at all other times. Roadwork signs will be placed on approach to the works and drivers are urged to take extra care when driving through the area as the road surface may be uneven.

The Government would like to take this opportunity to apologise to the general public for any inconvenience that these works may cause to them.
