Gibraltar

PRESS RELEASE

No. 352/2014

Date: 10th July 2014

Upper Rock Refurbishment Podcast

A new podcast featuring Ministers Neil Costa and John Cortes detailing the major £3m refurbishment programme of the Upper Rock will be posted in the Ministry for Public Transport website today. It follows a joint press conference yesterday when wide ranging plans to transform the Nature Reserve with new recreational facilities for the general public, walkways and renovated heritage and tourist sites were made public. Among the highlights of the Rock facelift is the construction of a spectacular suspension bridge at Royal Anglian Way and a new eastside pedestrian track linking Europa Point with the Upper Rock. Picnic and rest areas for the public are also envisaged. See Ministry's website at www.ministryoftransport.gov.gi
