

HM GOVERNMENT OF GIBRALTAR
Office of the Minister for Tourism, Commercial Affairs,
Public Transport and the Port
Suite 631, Europort
Gibraltar

PRESS RELEASE

No. 433/2014

Date: 18th August 2014

Waterparks damaged by severe weather

Several of the inflatable waterparks installed at beaches have been damaged as a result of the bad weather conditions and severe easterly winds which hit the Rock over the weekend. Some of the units have been deflated and stored away while others which came loose and ended up on the shore, have had to be secured as best as possible.

Staff are now assessing the extent of the damage to the waterparks and preparing the necessary repairs. The public will be kept duly informed as to when the waterparks will be operational again.

Minister for Tourism, Commercial Affairs, Public Transport and the Port Neil Costa MP said the Gibraltar Tourist Board was already dealing with the problem to ensure it was rectified as soon as possible.

Mr Costa said: "The rough weather damaged some of the waterparks but we are confident that the matter will be rectified and the situation restored back to normal for the rest of the summer. Our teams are working hard to ensure the aqua stations are back in service as soon as possible."
