**THE SCRIPT TOP THE BILL AT THE GIBRALTAR MUSIC FESTIVAL**

The Ministry of Culture is pleased to announce that The Script will be headlining the 2014 edition of the Gibraltar Music Festival. The band will play all their hits live at the Victoria Stadium on Saturday the 6th of September.

The Script has toured with U2, Take That and Paul McCartney, amassed almost four million followers on Facebook, 1.5 million on Twitter, racked up 100 million YouTube views, and their singer Danny O'Donoghue has starred as a coach on the BBC's TV talent show 'The Voice'. Their latest album '#3' was a huge success and spawned the hit No.1 single 'Hall of Fame'. Their music is catchy pop rock; their anthemic choruses are sure to have everybody singing along at the Victoria Stadium.

Once again, the all-day event will take place during Gibraltar's 'National Week' festivities and will be family and disability friendly. The Hon. Minister for Culture, Steven Linares, said: "I am delighted we will all be able to enjoy The Script live in Gibraltar this September. We already confirmed the X-Factor winner James Arthur will also be playing and more international artists will be added to the bill soon. The Gibraltar Music Festival will again cater for all age groups and many musical tastes. We want it to be a feel-good event that brings the whole community together."

**THE GMF CONTINUES TO GROW**

Last year's Gibraltar Music Festival proved to be significantly bigger than 2012's, with over 20 acts appearing across four stages at the Victoria Stadium.

Among the favourites were Olly Murs, Emeli Sandé, Lawson, Gabrielle Aplin, Level 42, Texas and 10cc.

The producers Word of Mouth and Axle Media said: "Our headline act for 2014 is our biggest act so far, and we have many more exciting names to announce in the coming weeks". HMGOG is already working hard with the Producers to make the 6<sup>th</sup> of September another memorable day of live music on the Rock.

The Ministry of Culture will again ensure the event features many local musicians, with more details to be released in the coming months.
