PRESS RELEASE

No. 235/2015

Date: 20th April 2015

Gibraltar Finance continues to take our Family Office proposition to London

Gibraltar Finance, together with a strong representation of local private sector representatives, will be exhibiting and speaking at the Family Wealth Management and Structuring Conference (FWM) in London this week.

This is the second occasion that Gibraltar Finance will attend FWM and the delegation will be led by Senior Executive Paul Astengo.

The 2014 conference proved very successful for the Gibraltar delegation with business written directly as a result of our attendance. The event is a leader in its field given the quality of the attendees, leaders and owners of significant international family offices.

The two-day event, first held in 2002, focuses on how professional intermediaries can best serve the private client and attracts in excess of 100 delegates. The structure of the event includes keynote presentations, panel discussions and case studies. Paul Astengo will be presenting to the audience on the merits of setting up a family office in Gibraltar. The Gibraltar delegation will also have the opportunity of hosting "clinics" in the jurisdictional sponsor's session on day 2.

Paul will also take the opportunity of hosting meetings with London based professionals and industry media contacts while in London.

Minister for Financial Services, Albert Isola commented, "The exciting challenge facing the Gibraltar Finance team is to deliver the message of our strong reputation, regulation and speed to market. They do this on an ongoing basis in our chosen markets underlining the Government's single minded determination to continue to grow Gibraltar as the EU onshore financial services jurisdiction of choice. This conference is a major one in the private client calendar for 2015 and will, once again, provide an excellent opportunity to meet and influence the key decision makers for many family offices."
