

## PRESS RELEASE

No. 362/2015

Date: 2nd June 2015

---

### **Gardening by Dolphins Youth Club**

A group of 16 young people from the Dolphins Youth Club have been involved in a renovation / gardening project over the last couple of months. This included learning about local fauna through a very informative and interesting tour of Gibraltar's Botanic Gardens.

The young people planted some flowers and plants in an area at the club which they have been responsible for maintaining and watering. Their final piece was a renovation of a plot of land close to their premises, just opposite the Anchorage which had been unattended for a while and was bursting with overgrown weeds, untrimmed bushes and rubbish. This task took the young people two days to complete, it required commitment, determination, team work and the desire to learn new skills amongst others.

The Gibraltar Youth Service would like to thank The Ministry for Heritage and Green Arc for their help and permission to carry out this eco-friendly project. Special thanks go to Dr Keith Farrel who has kindly been involved throughout the project and whose skills and knowledge have been priceless. For further or general information about the Gibraltar Youth Service please contact Mark Zammit, Principle Youth Officer on [gibyouth@gibtelecome.net](mailto:gibyouth@gibtelecome.net) or call 20078637.
