

PRESS RELEASE

No. 853/2015

Date: 14th November 2015

GIBRALTAR TO SHOW ITS SUPPORT FOR PARIS

In a show of support for the people of Paris, the Moorish Castle will be illuminated in red, white and blue on Saturday and Sunday nights.

It had originally been agreed that the Tower of Homage would have been bathed in blue light for Diabetes awareness but the Diabetes Society has agreed to the change and are content for their blue illumination to be given an extra two days instead of this weekend.

A further statement will issue shortly on other actions designed to show Gibraltar's solidarity and respect for the People of France at this painful time.
