

PRESS RELEASE

No. 167/2015

Date: 16th March 2015

GOVERNMENT OFFERS DATE FOR TV DEBATE

The Opposition is well aware that Her Majesty's Government of Gibraltar has already been in contact with GBC in an attempt to organise a televised debate on public finances and that the details of this were in the final stages of organisation. The Government has suggested Thursday 23rd April as the prospective date of a televised debate on public finances on GBC's Viewpoint programme but would remind the Opposition that they have been free to call a debate on this issue in Parliament at any time.

Chief Minister, the Hon Fabian Picardo QC, said 'The Government's position on the state of Gibraltar's public finances has always been clear and I am really looking forward to the debate on 23rd April. I also find it ironic that the Opposition's Press Release condemns the debating of important matters via Press Releases.'
