Date: 6th July 2016

Waterport Terraces Day Centre at Convent Fair

Service users who attend the Care Agency's Waterport Terraces Day Centre participated in the 2016 Convent Fair, selling handcrafted goods produced at the Day Centre throughout the year, including hand painted candle holders and knitted toys.

The service users take great pride in the preparation of such events. Handcrafting the products forms an important part of the social interactions at the Day Centre and the Convent Fair offers a fantastic opportunity for service users to showcase some of their skills. Some of the service users also volunteered to run the stall at the Fair.

Minister for Social Services, the Hon Samantha Sacramento, said: "I am proud of the great work produced by our Day Centre service users and the effort and time that each of them have put into this projects. I am also very grateful to the dedicated staff at the Day Centre for making this possible."
