### **Gibraltar Finance promotes our Wealth Management sector**

Gibraltar Finance is hosting a series of discussions on “Gibraltar as a preferred jurisdiction for the UK and Commonwealth countries” in Gibraltar House, London on 28th June 2017. The event has been organised in partnership with the Gibraltar Funds and Investment Association (GFIA).

Drawn from family offices and including leading practitioners from legal and accountancy firms from both the UK and Switzerland guests will attend sessions that will highlight Gibraltar’s leading position as an onshore centre for financial services in Europe. The seminar, designed to be interactive, will allow participants to ask questions and learn more about the advantages presented by Gibraltar for global financial family offices and intermediaries.

Paul Astengo, Senior Executive with Gibraltar Finance will introduce Gibraltar and its evolution as a modern financial centre in Europe. Joey Imossi, TEP, Fiduciary Group will then discuss the set up for companies and assets and an overview of Gibraltar’s structures for private clients and high earners. Finally David Diez de Artazcoz CIO and Director with Atlantic Capital will present on wealth structuring and investment management sharing case studies and live examples with Ashish Gianani, Portfolio Manager at Atlantic Capital.

Albert Isola, Minister for Commerce HM Government of Gibraltar commented, “The Gibraltar Finance team working strongly in partnership with the private sector continues to take our message to audiences in London which is a very important market for us. In keeping with our stated ambition, we have harnessed the benefits that Gibraltar House in London offers for an increasing number of bespoke events. We very much look forward to welcoming our guests for what, I am certain, will be a thoroughly worthwhile experience. We have worked hard over recent years to ensure that we have a modern and up to date legislative platform. This is at the very core of our proposition and leads the way in these important areas that continue to be a focal point for the continued success that Gibraltar enjoys.”
