

## PRESS RELEASE

No: 82/2017

Date: 9th February 2017

---

### **Opposition Repeats its Old Story**

The Government is unsure whether today's Opposition statement regarding the Care Agency is a new Press Release or merely a repetition of a previous one as it offers nothing new in the way of opinions, facts or arguments.

As a consequence, the Government merely points out, again, that its financial investment in the Care Agency continues to rise, standards of care continue to improve and the turnover of social and other workers at the Care Agency continues to fall. If Mr Llamas were to turn up to the next session of Parliament he would have all this explained to him.

For its part the Government will continue to work with the unions and staff for the benefit of the service users, their families and the people who do such a great job working there.
