

## PRESS RELEASE

No. 67/2018

Date: 7th February 2018

---

### **No Idling signs at all Bus Terminals**

The Ministry of Infrastructure and Planning, in conjunction with the Department of Environment, Heritage & Climate Change is pleased to announce the installation of No Bus Idling signs at all bus terminals throughout Gibraltar. By stopping bus engines at their terminals between trajectories, we hope to improve air quality for everyone.

Other significant benefits of not idling include a reduction in both fuel consumption and carbon emissions of the bus fleet.
