PRESS RELEASE

No. 810/2018

Date: 20th December 2018

Regulation of e-devices – Personal Electric Transporters

HM GoG would like to bring to the attention of the general public that following changes to the Control of Traffic Regulations, the use of personal electric transporters such as electric scooters are now strictly prohibited on footpaths. These legislative changes have been published today and will take immediate effect.

Ahead of the festive Christmas season HM GoG would once again like to remind the public, that those persons considering purchasing any form of personal e-device for themselves or as a gift, should take careful note of the ongoing review that could in due course lead to strict regulation and potential prohibition in part or in its entirety.
