

PRESS RELEASE

No: 93/2019

Date: 11th February 2019

RESPONSE TO CRITICISM OF SEWAGE PLANT DESIGN

The site for the sewage treatment plant was selected by the previous administration. Possible alternative sites have since also been considered and none found to be suitable.

The design submitted at this stage is subject to change, and Government has already engaged with the architects in order to work on achieving improvements that will minimise the impact on the landscape of the area.
