

TREE ASSESSMENT

Template Document

INFORMATION REQUIRED

To ensure an efficient turnaround for the assessment of trees for any proposed works, the Department of the Environment and Climate Change requires the information detailed below. A template form to be used for each tree assessed has also been included.

Should you require any further assistance, please contact the Department of the Environment and Climate Change at: trees.environment@gibraltar.gov.gi

Information required includes:

- Photographic evidence of each tree being assessed.
- Map highlighting the location of each tree being assessed.
- Tag and numbering system to be used for ease of identification of each tree.
- A description of the proposed works to the tree.
- Rationale for the proposed works to the tree; why the works are necessary.
